# YOUR GAME

## For companies, schools, institutions

- A board game is a very high quality and interactive item.
- A game always transports your topics to your customers, in a fun way.
- A game does not use up and can be played again and again.
- The advertising effect is much higher than that of short-lived items like wine, coffee, chocolate and other edibles, or standard giveaways.
- Choose from our proven concepts like card games, memo games, or let our team design a completely new game for you.
- Of course we can also adapt one of our Yodagames concepts to your theme or packaging.
- Of course we will be happy to produce your already existing game, too.

## For game designers and small publishers

- Using our special production-techniques, we can create short-run quantities from 5 to 500 games for you.
- Perfect for testing the sales of a new games before ordering a larger quantity. Or for your short run quantity, saving storage space and possible with smaller investments.

# MEMO CARDS

## Memo Cards

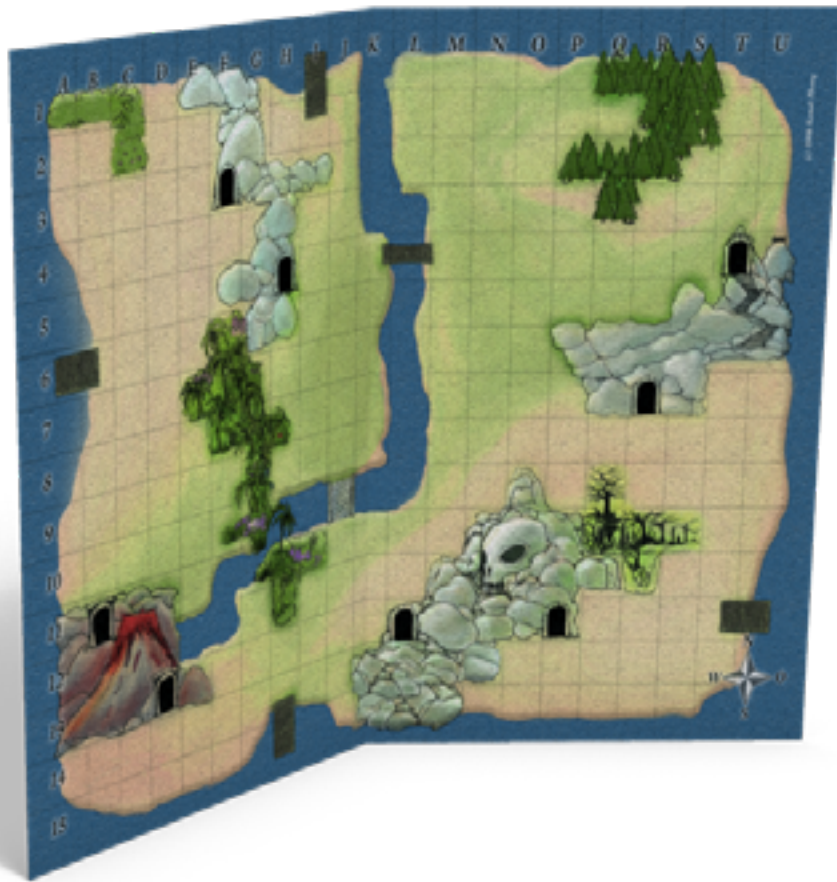

- All memo cards are made from high quality 2 mm thick card board + 4c printed paper.
- The front is borderless, printed with your images. On the back, we can print your logo as a pattern or another image.
- Memo games come in poly bags. You can order boxes separately.
- Find your desired card-size and number of cards per set on the left, then find the cost per set on the right.

# CARD DECKS

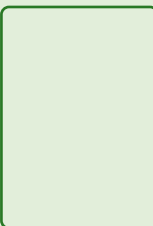

- We produce your cards in different sizes, with double-sided 4c-print from your image files, on high-quality stock with matte finish, and rounded corners.
- All cards in one deck can be printed differently on both sides. We can also use standard-images of Poker or „Doppeldeutsche“ cards for you and add your logo.
- Boxes for your decks are, in general, 1 cm larger than the deck of cards. 100 cards have a height of around 3.5 cm to fit in the box.
- Cost per card-deck in the yellow column refers to the number of cards of the value of „cards per deck“. Additional same number of cards per deck only costs the price shown on the right.
- For example: Size 59x92mm, 35 cards per deck, 100 decks: per deck 1.02 (7 cards) + 1.86 (4 x 0.42 for 4 x 7 additional cards) = 2.70 per deck.
- Use our online calculation tool for quickest cost check for your project.

# ▲PUNCH-BOARDS (TOKENS)

- Tokens are made of 2 mm thick cardboard, double-sided covered with full-color printed paper.
- Examples: for use as floor-tiles, parts of game-boards, chips, markers, items ...
- Punchboards in small box sizes can be creatively used for many purposes: coins, score counters, items, and of course pop-up pawns can easily be made.
- The counters will be laser cut on boards and pushed out by the players before the first game.
- Choose the board size according to your box size.
- Minimum size per piece 15 x 15 mm. Max. 20 parts per board. Additional parts +0.15 each.

## Setup cost

- Standard shapes (squares/rectangles, rounded squares/rectangles, circles/ovals, hex tiles, triangles - per order: 1.- per image on the board.
- For special shapes, you have to send cut-ready contour files. 5.- per image on the board.
- Just use our online calculation tool to check the correct cost for your project.

# PLAYING MONEY

- For every game that uses money, trade and other types of exchange.
- Indicated prices are for the complete bulk of bills per bill-value. You can divide them into any number of games.
- Full color 4c print on both sides of the bills is included.
- When ordering complete games from us, we will cut-off the bills in the quantities needed and pack them in the games.

## Example

- You want 100 games. Each game has 3 different bills (10, 20, 50) and 40 bills of each value.
- That's 100 games x 40 bills = 4000 bills. You will order 3 x 4000 bills.

# INLAYS FOR BOXES

- Inlays divide the inside of the game-boxes in one direction, so that the game-parts can be stored more properly and the board can lie on top.
- MF = Middle compartment: A bank on both sides leaving a compartment for game-pieces in the middle of the box. Game-board/instructions rest on the banks.

MS = Middle bank: A bank in the middle, leaving two separate spaces for game-parts on both sides of the box.

- Height of the middle-bank will be height of the box minus 1 cm. For box size 295 x 295 mm with middle compartment, the bank-height is limited to 45 mm.

# SHRINK-WRAPPING

- We will pack and shrink-wrap your finished games.
- The shrink-wrap will protect your games from dirt and moisture during transportation and storage.
- Please follow the rules of the European „Verpackungsverordnung“ and pay the necessary part to the Dual System.

# IMAGE FILES

## General rules

Create your final images as JPG files in 300dpi, using CMYK color mode. PDF is, of course, also ok if your're familiar with the format-creation. Please download and use the templates from our website.

## Game-boxes

Create the box so that there is no relevant information or design within 0.5 cm from all edges. Make sure there is one background-color. Due to movement or overlapping of the cover-paper, these areas may not be designed specifically, so just use a background-color or pattern.

## Playing cards

Use the end size + 2 mm bleed on all sides. Do not put relevant information etc. closer to the edge than 5 mm. Movement of the printed image is possible. Use the following names: front001.jpg, front002.jpg etc. For the back sides, use the same way: back001.jpg, back002.jpg etc. or, if all the same: back01-50.jpg. Other naming will cause additional charges. Please download our templates.

## Die-cut counters / Memo-cards

Use final size + 3 mm bleed on all sides. No relevant information or frames closer than 5 mm to the edges. The printed image may shift on the final cards due to die-cutting tolerances, especially on back-sides. Avoid frames. Laser cutting can leave burn marks.

## Game boards

Add 1.5 cm wrap around on the sides. Do not put relevant information closer than 6 mm to the edges and the cuts. avoid frames. The printed image may shift on the board.

## Service

In case you need help, we can provide our quick and professional editing-service for your convenience (charge is 200 Euros per hour). In case of multiple data exchange due to wrong data, the cost will be charged accordingly.

# YOUR ORDER

Send us your order by email and include a copy of your online calculation. Attach your images or send them using a sending-service of your choice. After receiving your order, we will send you a confirmation with the total amount. You can pay using Paypal or wire-transfer to our account. After receipt of payment, we will put your order in the production queue. We produce all orders in order of order received. Waiting time depends on number of orders in queue. Please plan with enough additional time. We can not guarantee a fixed timeframe, except when ordering express, which is available with additional charge (please ask). 10% over- or underproduction quantity is possible and will be charged accordingly. We will notify you as soon as your production is finished, so that pick-up or transport according to your wishes can be arranged.

## GENERAL ADVICE

### Safety of toys

Since we produce small quantities of games, we can not do tests of our printed products in terms of safety conformity - this would be more expensive than the production itself. If you need these reports, please run the tests yourself. We will supply you with information about the used material and printing methods on request. All standard wooden parts delivered by us are conform to the European regulation of toy safety.

We also point out the following rules for publishing games to you:

- All your games must contain your full name and address on the outside of the box.
- Your games have to have the CE-sign and a warning for hazardous parts for children under 3 years of age. We will send you the images for these warnings on request.

### Copyright

Please note that the name „Memory“ is a protected trademark and therefore can not be used for your game. You can call it Memo, Concentration, Double, Image Couples or any other name you like. The term „Monopoly“ is also protected, as well as parts of the design, and therefore may not be produced commercially. Please check the actual rules online.

# ESCAPE ROOM GAMES

Here's a selection of Escape Room games and books designed by Spiegel best-selling author Yoda Zhang. Books are in German, games also English. Talk to us for volume discounts.
